TERMS

This Order is governed by the Master Subscription Agreement at <https://www.datadoghq.com/legal/msa/> (the “**Governing Contract**”). In the event of any inconsistency between the terms of this Order and the Governing Contract, the terms of the Governing Contract will take precedence unless this Order expressly states its intent to supersede (and identifies by section reference) the affected provision of the Governing Contract. Capitalized terms not otherwise defined in this Order have the meanings assigned to them in the Governing Contract.

Further information regarding the capabilities and features associated with different Services, and the calculation of Service usage and Fees, is available at <https://www.datadoghq.com/pricing/> (“**Pricing Page**”).

For clarity, Pro Plus Hosts include the following features: Watchdog for Infrastructure, Anomaly Detection, Forecast Monitoring, and Live Processes.

Customer may have the option to use separately priced Services or Service features that are not listed on this Order. Fees for any use by Customer of these optional Services or features or use of the Committed Services after the End Date will be calculated and charged on a monthly basis at the applicable prices on the Pricing Page. Customer can disable Authorized Users’ access to these optional Services and features through its configuration of the Services.

This Order will become effective when signed by both Parties. Unless both Parties sign this Order, the pricing and terms offered in this Order expire on the Offer Expiration date stated above.

The undersigned representative of each Party hereby represents and warrants that (s)he is duly authorized to legally bind such Party to the terms of this Order.
